John E. Morris | Founder

OUR HISTORY

John E. Morris, a mechanical contractor from Baltimore moved to Salisbury in the 1930's. After experiencing some difficulties in acquiring the supplies necessary to operate as a mechanical contractor on the Shore, he decided to resolve the problem by establishing a mechanical supply business.

In 1946, SDI opened its doors in downtown Salisbury, MD. Today SDI is the oldest locally owned plumbing, heating and air conditioning distributor on the Delmarva Peninsula. 73 years old approaching our 75th anniversary. Owned and managed now by 3rd generation family members.
